Key Selling Points

Pleasure Air Technology

10

Intensity levels

How to demo

- Turn on by pressing the power button for 2s. LED light turns on.
- Illustrate how Pleasure Air Technology works by placing your palm on the stimulator head.
- Cycle through all 10 intensity levels by pressing (+) and (-) buttons. Highlight the wide range of intensities ensuring both soft and strong stimulation.
- Press the power button shortly to show the Afterglow feature: CLASSIC 2 reverts to its lowest setting for a relaxing end to an orgasm.
- Mention the two stimulation head sizes (14 mm and 10 mm) that were developed to accommodate body diversity (covering 99% of clitoris sizes). The empty space inside the head changes the airflow and pressure. Less space increases intensity and vice versa.
- CLASSIC 2 is one level down from the PREMIUM 2 with a few differences in features and lower price point.
- CLASSIC 2 in two new colors: Black and Bordeaux.
- New materials: Full soft-touch surface body (ABS plastic) & stimulation head made of body-safe silicone.
